HVAC FOUNDING PARTNER PILOT

30 DAYS FREE · \$200 DEPOSIT

— COMMIT THIS TO MEMORY

The Founding Partner Offer

Before you get on any call, this offer must be second nature. Anchor to full price first.
Always. Every time.

STANDARD PRICE

\$2,250

Installation fee + \$597/month ongoing

→

FOUNDING PARTNER PILOT

\$0 Install

30 days FREE · \$200 refundable deposit
· \$297/month after

The \$200 psychology: It is NOT a fee. It is a commitment filter. Frame it as: *"I'm putting in real time configuring this for your specific business — I just need to know we're both serious."* Framed correctly, prospects who balk at \$200 are telling you they were never going to pay \$297/month either.

Meet Their New Team

A

Alex

RECEPTIONIST

Texts every lead within 47 seconds, 24/7 — including 2am and Sunday

J

Jordan

APPT SETTER

Qualifies with 4 questions, handles objections, books the estimate

S

Sam

DISPATCHER

Routes to right tech by skill, zip, and availability automatically

R

Riley

FOLLOW-UP

7-day sequences — 1hr, 24hr, 72hr, 7d — no lead ever goes cold

M

Morgan

OFFICE MGR

CRM, confirmations, push alerts — full visibility in one dashboard

— 5 MINUTES BEFORE YOU DIAL

Pre-Call Research Checklist

WHAT TO LOOK UP	WHERE	WHAT YOU'RE LOOKING FOR
Active Facebook Ads	Meta Ad Library	Are they actively spending? Note the ad creative — reference it in the opener
Google Reviews	Google Maps	Rating + patterns in reviews. Positive = they care about quality. Negative = pain signal
Team Size	Website / LinkedIn	Number of techs = volume they can handle. 3-15 is the sweet spot
Service Area	Website	Zip codes they cover — feeds into dispatch configuration
Browser Tabs Ready	Your system	Demo link, Stripe payment link, Calendly — open before the call starts

Your mental frame: They're spending \$3K+/month on ads, generating 30-60 leads/month. If 30% go cold and their average ticket is \$6,000 — that's \$54,000-\$108,000 in annual revenue quietly bleeding out. Your \$297/month is rounding error. Your job is just to make that math vivid.

— THE CALL FLOW

25–35 Minute Framework

1**Open + Rapport**

2–3 minutes

Make them comfortable

These leads already said yes. Don't over-pitch the opener. Be diagnostic, not salesy — this immediately separates you from every vendor they've ever spoken to.

"Hey [Name], thanks for jumping on — I'm [your name]. I saw you're running ads in [city], which is actually why I reached out. Before I show you anything, I just want to make sure this actually makes sense for your situation. Cool if I ask you a couple quick questions first?"

Quick rapport question (pick one):

- "How long have you been running the [company name] show?"
- "I saw your Google reviews — a lot of customers mention [thing]. Is that intentional?"
- "You're in [city] — peak season must be intense right now, how's volume been?"

"Awesome. So let me understand your situation a bit — then I'll show you exactly what I built and you can tell me if it makes sense."

2

Diagnose Pain

8–10 minutes

Get them to say the number

This is the most important phase. **Don't tell them their problem — let them tell you.** By the time they've answered all 5 questions, they've convinced themselves. Your solution becomes the obvious relief.

Q1 Establish the bleed

"When someone fills out your Facebook form right now — what actually happens? Like, who follows up and how fast?"

If they say "pretty fast" → "What about at 10pm on a Wednesday? Or Saturday morning?"

Q2 Quantify the loss — THE CRITICAL MOMENT

"How many leads do you think slip through — ones where you called but they went cold before you could connect?"

Then: "What's your average job worth — estimate ticket?" → "So [X] leads × \$[ticket] = \$[X] walking out every month. Does that feel about right?"

Q3 Find the bottleneck

"Are you the one doing most of the follow-up, or do you have someone on it?"

If themselves: "What happens when you're on a job and someone fills out the form?"

Q4 Surface the real fear

"Has this ever cost you a big job? A lead that became someone else's customer because you couldn't get to them in time?"

Q5 Confirm the trigger

"Why did you respond to my message? Is this a timing thing or has it been a problem for a while?"

Always do the pain summary before moving to the demo:

"Okay so let me make sure I'm hearing this right. You're spending [X]/month on ads, generating [X] leads, but a big chunk go cold — especially after hours. And at [ticket size], that's real money. Fair summary?"

→ When they say yes — **PAUSE. Then: "Okay. Let me show you what I built."**

3

Show the System

7–8 minutes

Make the outcome vivid

Frame before sharing screen: "I'm going to walk you through exactly what happens from the moment someone fills out your form. Specific to HVAC. Takes 7 minutes."

STEP	WHAT YOU SAY	WHAT YOU SHOW
1. 47-Second Response	"Lead fills out your form at 11:47pm Tuesday. This is Alex. Watch."	SMS sending in seconds
2. Qualification	"Jordan asks 4 questions. Never diagnoses. Never quotes prices. Only books."	SMS conversation thread
3. Booking + CRM	"Lead picks a time. Your phone gets a push. Morgan logged everything."	Lead card in dashboard
4. Follow-Up	"For leads that don't book immediately — Riley sends 4 messages over 7 days."	Follow-up sequence view
5. Dispatch	"Zip 77084, AC repair, Thursday 2pm — Sam assigns the right tech automatically."	Dispatch assignment screen

After the demo: **"That's the whole system. Five people, five jobs, 24/7. What questions do you have right now?"** — Then stop talking. Let them react. Do not fill the silence.

— PHASE 4 — STACK THE VALUE

The Human Equivalent Cost

Say this verbatim. Let the math do the work.

	Alex — 24/7 Receptionist Texts leads, handles after-hours, never calls in sick	\$4,000–5,000/mo
	Jordan — Appointment Setter Qualifies, handles objections, books estimates	\$3,500–4,500/mo
	Sam — Smart Dispatcher Routes techs by skill, zip, availability	\$3,000–4,000/mo
	Riley — Follow-Up Agent 7-day sequences, marks Cold automatically	\$3,000–3,500/mo
	Morgan — Office Manager CRM, confirmations, push alerts to owner	\$2,500–3,000/mo
	FieldBuilt AI — All Five. Founding Partner Price.	\$297/mo

"That's \$13,500 to \$19,000 a month to hire all five. And they take breaks. And they quit. That's what I'm replacing. For \$297 a month after your free trial."

[Pause. Then:] "If this system books you 3 extra jobs a month that would have gone cold — at [their ticket size] — what's that worth?"

— PHASE 5 — MAKE THE OFFER

The Founding Partner Pitch

"So here's what I'm doing for the first 5 founding partners.

Normally this is a **\$2,250 setup plus \$597 a month**. That's what we'll be at in a few months.

For you — I'm waiving the entire install. Zero dollars. And I'm giving you the first **30 days completely free**.

The only thing I ask is a **\$200 deposit**. Not a fee — it comes back to you or gets applied to your first month. It's just my way of making sure we're both serious. I'm putting in real time setting this up for your specific business — I need to know you're not going to ghost me after day one.

So: 30 days free, \$200 holds your spot, and after 30 days if you want to keep it — which you will — it's \$297 a month."

Rule: Stop talking after you present the offer. The next person who speaks loses. Give them 10 full seconds of silence. Sit with it.

— PHASE 7 — THE CLOSE

Get the \$200 On the Call

"Alright — here's what I want to do. I'll get you set up for the 30-day pilot and walk you through the 20-minute onboarding where we configure the system for your specific service and area. To hold your spot, I need the \$200 — **I'm sending you the link right now in the chat**. Once that goes through, I'll book the onboarding call and you'll have the system live on your leads within 48 hours. Sound good?"

Send the Stripe link WHILE ON THE CALL. Not after. Not "I'll email it to you." Right now, in the chat. The gap between "yes" and "done" is where deals die.

If they say "let me do it later":

"My concern is I only have 5 pilot spots and two others are interested. I can't hold the spot without the deposit. If you want to do this, let's do it now while we're both here — takes 30 seconds."

— HORMOZI ROOT CAUSE DIAGNOSIS

Every Objection Is One of Three Problems

Before answering any objection, identify the root. Then solve at the root — not the symptom.

ROOT CAUSE	WHAT THEY'RE REALLY SAYING	FIX IT WITH
Outcome Belief	"I don't think this will actually work"	Proof + the 30-day free trial eliminates their risk
Trust in You	"I don't know if YOU can deliver it"	Specificity, transparency, case studies, your personal involvement
Perceived Cost	"The money/time/disruption isn't worth it"	ROI math — one extra job vs. months of cost

"How do I know this will actually work?"

OUTCOME BELIEF

"That's exactly why I'm giving you 30 days for free. You're not buying a promise — you're running it on your actual leads. By day 7 you'll have seen it work or you won't. You risk nothing except 30 days of having your leads followed up on instantly. Leads contacted within 5 minutes convert at 100x the rate of leads contacted after an hour. That's not my stat — that's industry research. The system does that for every single lead."

"I already have someone doing follow-up"

OUTCOME BELIEF

"Does she work at 2am? Does she send a follow-up at exactly 1 hour, 24 hours, 72 hours, and 7 days? Does she qualify every lead with the same 4 questions and log it in a CRM automatically? I'm not replacing her — I'm handling the overflow and after-hours so she can focus on the jobs that actually need a human. What would it mean for her if every lead that came in after 5pm was already qualified and booked by the time she got in?"

**"I don't trust AI talking to my customers"**

TRUST + FEAR

"I built the system with this exact concern from HVAC owners in mind. The AI does one thing: it collects four pieces of information and books a time slot. It cannot diagnose. It cannot quote. It cannot make any technical statement about the problem. If someone asks 'what's wrong with my AC?' — it says 'great question, let's get a tech out to take a look.' You see every single message in the dashboard. You can step in at any point. And every customer who does book — they don't feel like they're talking to a robot. They feel like they got a quick, professional response."

**"\$297 is a lot every month"**

PERCEIVED COST

"What's your average job ticket? [They answer.] So one extra job a month that would have gone cold pays for 20 months of the system. You're doing ~40 leads a month — if this rescues even 2 of those, that's [2x ticket]. The \$297 is literally rounding error. The real question isn't whether \$297 is worth it. It's: are you losing more than \$297 worth of jobs to slow follow-up right now? I think we both know the answer."

**"I need to think about it"**

TRUST (USUALLY)

"Totally fair. What's the part that needs more thought? Is it the tech side, is it whether this will work for HVAC specifically, or is it something else?" [Let them answer — it's one of the other objections in disguise. Solve that. Then:] "The 30 days free eliminates the financial risk entirely. Worst case: you spend 30 days having your leads followed up on automatically and it doesn't add any jobs. Then you walk away and owe nothing. Does it make more sense to think about it — or to just try it and see?"

**"Can you send me more information?"**

TRUST / STALL

"Absolutely — I'll send you a one-pager after the call. But let me ask: if the information confirmed everything I've just told you, would you be ready to try the 30-day pilot?" [If yes:] "Then let's save you a step. What would it take for you to be comfortable moving forward today?" [If no:] "What's the question that the information needs to answer?"

**"I need to talk to my partner/wife first"**

STAKEHOLDER

"Makes sense — would it be helpful to do a quick 10-minute call with both of you so she can ask questions directly? I can do that this week." [Then:] "In the meantime — can I ask what YOU think? If it was just your call, does this make sense?" Get the champion committed first. Then loop in the other person.

— SHARE-SCREEN DECK — 8 SLIDES MAXIMUM

Demo Slide Structure

SLIDE 1 — THE PROBLEM

Your lead filled out the form at 11:47pm Tuesday.

"78% of customers choose the company that responds first."

Visual: Timeline — Form filled → 8 hours → Lead called competitor

SLIDE 2 — THE MATH (LIVE)

You're burning \$[X] every month and don't know it.

Fill this in with their real numbers on the call.

Visual: Blank calculator — leads × % cold × avg ticket = \$\$\$. Make them do the math out loud.

SLIDE 3 — THE AI OFFICE

Five people. Working 24/7. Installed today.

"Meet your new team."

Visual: 5 name cards — Alex / Jordan / Sam / Riley / Morgan with one-line job descriptions. No bullet lists.

SLIDE 4 — WHAT HAPPENS MINUTE 1

Form filled → 47 seconds → AI Office takes over.

"Every lead. Every time."

Visual: Flow diagram — Form → Alex → Jordan → Appointment booked → Sam → Riley (if no reply)

SLIDE 5 — THE CONVERSATION

This is what your leads see.

"Never diagnoses. Never quotes. Only books."

Visual: Actual SMS conversation screenshot — qualification flow, objection handling, booking confirmation

SLIDE 6 — THE DASHBOARD

Every lead. Every message. Every appointment. One place.

"You see everything in real time. Override anytime."

Visual: CRM dashboard screenshot — pipeline, lead cards, conversation thread, appointment calendar

SLIDE 7 — THE ROI

One extra job pays for 20 months.

"\$297/month vs. avg ticket: \$6,000"

Visual: Two columns — cost vs. value. Simple, bold. No charts. Just the number.

SLIDE 8 — THE OFFER

30 days free. \$200 to hold your spot.

Full price: ~~\$2,250~~ install + \$597/mo

Visual: Full price struck through. Pilot price in orange. "5 founding partner spots available." — CTA visible.

— POWERFUL DEAL SCORECARD — FILL IN AFTER EVERY CALL

Did You Capture All 8 Dimensions?

P

Pain

What specific revenue are they losing each month? Did they say a number?

O

Opportunity Cost

Did they quantify the monthly loss in their own words?

W

Wants / Needs

What does success look like to them — more bookings, less owner involvement?

E

Executive Influence

Owner only, or is a partner/spouse involved in the decision?

R

Resources

Are they running FB/Google ads? Monthly spend? Any budget allocated?

F

Fear of Failure

What's their biggest concern — AI saying something wrong? Setup hassle?

U

Trust

Did they open up? Were they candid? Did they feel safe in the conversation?

L

Little Things

Any personal details, timing constraints, preferred communication style?

TOTAL SCORE	ACTION
35–40	Close on this call. Send link now.
25–34	Close on this call — one more objection to clear first.
Below 25	Schedule a second call. Something important is still missing.

— IF THEY DIDN'T CLOSE ON THE CALL

3-Touch Follow-Up Sequence

2h

WITHIN 2 HOURS — WHATSAPP

"Hey [Name] — really enjoyed the conversation. Sending over the one-pager I mentioned. The spot is still open today. If you want to try the 30 days, just hit reply and I'll send the link — takes 60 seconds. [Your name]"

48h

48 HOURS LATER — IF NO RESPONSE

"Hey [Name] — just wanted to check in. Did you get a chance to look over what I sent? I have one founding partner spot left before I open to general waitlist. Wanted to give you first right of refusal since we already talked. [Your name]"

DAY 5 — IF STILL NO RESPONSE

5d

"Hey [Name] — I'll assume the timing isn't right. I'll check back in a few weeks. If something changes — we had a pilot customer in [similar city] book 4 extra jobs in their first 2 weeks. I'll send you their numbers when they're ready for a case study. [Your name]"

— KNOW THESE COLD

Numbers That Close Deals

Every stat below should roll off your tongue without thinking. If you're fishing for a number on a sales call, you've already lost confidence.

47s FieldBuilt AI lead response time — every lead, every time, including 2am

47hrs Industry average lead response time — what they're competing against

100× Lead conversion lift when contacted within 5 min vs. after 60 min

65–78% Percentage of leads that go cold without immediate follow-up

\$19K/mo Human equivalent cost to hire all five AI office roles

\$297/mo FieldBuilt AI pilot price — after 30 days free

\$200 Refundable deposit — commitment filter, not a fee

\$597/mo Full price (post-pilot) — always anchor to this first

\$2,250 Standard install fee — waived entirely for founding partners

48 hrs Time from deposit to system live on their real leads

\$3–8K Avg HVAC residential ticket — the ROI math anchor

1 job Number of rescued leads needed per month to ROI-justify the system

— THE ONE HORMOZI TRUTH

"If someone says 'too expensive' — they don't believe you enough yet. That's a **trust and proof problem, not a price problem. Never drop the price. Increase the belief."**

— ALEX HORMOZI, \$100M OFFERS

AFTER THEY PAY — WHAT HAPPENS NEXT

Onboarding Confirmation Script

"Perfect. You're in. I'll send you a calendar link in the next 5 minutes for the onboarding — it's about 20-25 minutes. During that call we'll set your service type, your booking hours, your coverage area, and get your Facebook lead webhook connected. By the time that call ends, every lead that fills out your form is getting a text in 47 seconds.

One thing I want to say — I'm personally going to be checking in with you in week 1 and week 2. If anything looks weird or you want to adjust how the system talks, just WhatsApp me. I want to make sure this works for you."

Speed to value is your most powerful retention tool. The faster they see a real lead get texted, qualified, and booked by the system — the lower your churn risk. Push to get them live within 24 hours of the deposit.
